### SUMMARY

Aspiring Front-End Developer focused on building responsive and user-friendly web applications using React.js and modern web technologies. Eager to contribute to innovative and collaborative projects that improve user experience and solve real-world problems.

### TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks/Libraries:** React.js, Mantine UI
- **certification:** React JS course - SCALER
- **Tools:** Git, npm, VS Code, Chrome DevTools
- **Other:** Responsive Design, UI/UX Principles, Debugging, Version Control

### PROJECTS

- **Calculator using Mantine UI**  
Built a calculator using Mantine UI with advanced theming, modern component styling, and accessible layout optimized for all devices.
- **Portfolio Website using React**  
Created a personal portfolio with a smooth, responsive React layout to showcase skills and GitHub-hosted projects — includes animated sections and working contact form.
- **PokePeek using Mantine UI:**  
Built a React.js app with Mantine UI to search, filter, and view Pokémon details in a clean, responsive interface with API integration and a favorites feature for quick access to preferred Pokémon.
